RomTrax

## the remote answer

keeping business in touch with its people and resources…anytime, anywhere

Rising operating costs, regulatory compliance, increased demand for qualified personnel…

RomTrax is a cost-effective tracking and monitoring system developed to help companies meet the demand of today's workplace.

➢ Employee safety for working alone and in hazardous areas
➢ Vehicle and asset tracking, monitoring and security
➢ Driver logs, fuel tax credits and two-way global messaging
➢ Easily customized for specific applications

RomTrax

the remote answer

keeping business in touch with its people and resources…anytime, anywhere

Proven technologies designed and packaged for easy integration, quick installation and low maintenance make RomTrax the most advanced, cost-effective monitoring/tracking system available.
